

### **Amendments to the Claims:**

This listing of claims will replace all prior versions and listings of claims in the application.

### **Listing of Claims:**

1. (CURRENTLY AMENDED) Feed for aquatic animals that contains, in single-piece units, at least two feed mixtures of different composition, ~~characterized in that~~ wherein the single-piece units consist of at least two contiguous zones that merge into each other and contain the feed mixtures separately from each other.
2. (CURRENTLY AMENDED) Feed according to claim 1, ~~characterized in that~~ wherein the individual zones display different colorations.
3. (CURRENTLY AMENDED) Feed according to claim 1, ~~characterized in that~~ wherein at least one zone contains fat-rich feed.
4. (CURRENTLY AMENDED) Feed according to claim 3, ~~characterized in that~~ wherein the fat-rich feed contains lipophilic additives.
5. (CURRENTLY AMENDED) Feed according to claim 1, ~~characterized in that~~ wherein at least one zone contains fat-poor feed.
6. (CURRENTLY AMENDED) Feed according to ~~claims 1 through 5,~~ claim 1, wherein regions with water-soluble nutrients and/or agents have a fat matrix.
7. (CURRENTLY AMENDED) Feed according to ~~claims 1 through 6,~~ claim 1, wherein its floating or sinking behavior is adjusted through a combination of zones of different density.
8. (CURRENTLY AMENDED) Feed according to claim 7, ~~characterized in that~~ wherein the density is adjusted through a combination of zones of different fat content.
9. (CURRENTLY AMENDED) Feed according to claim 7, ~~characterized in that~~ wherein the density is adjusted through a combination of zones of different expansion.

10. (CURRENTLY AMENDED) Feed according to ~~claims 1 through 9, characterized in that~~ claim 1, wherein it contains water-soluble substances that upon dissolving in water impart to the feed a propulsive force.
11. (CURRENTLY AMENDED) Feed according to ~~claims 1 through 10, characterized in that~~ claim 1, wherein it displays as a first zone a fat-rich core and as a second zone a protein-foam shell.
12. (CURRENTLY AMENDED) Feed according to ~~claims 1 through 11, characterized in that~~ claim 1, wherein the at least one feed zone contains enzymes, probiotics, immunomodulators, vitamins, amino acids, fatty acids, sugar, phospholipids, proteins, antioxidants, and/or plant extracts.
13. (CURRENTLY AMENDED) Feed according to ~~claims 1 through 12, characterized in that~~ claim 1, wherein the feed unit is formed as a flake, granule, stick, pellet, or tablet.
14. (CURRENTLY AMENDED) Method for producing a feedstuff for aquatic animals, ~~characterized in that~~ comprising converting at least two feed mixtures of different content or different coloration ~~are converted~~ into a feed unit that consists of at least two contiguous zones that merge into each other and contain the feed mixtures separately from each other.
15. Cancelled
